Our Collection

# Incredible. For hire.

**Our private event spaces are never an afterthought: they have been built into our venues from the design stage.**

Each has its own distinct personality that highlights timeless design and seasonal dining and drinking. Our dining rooms boast warmly designed areas that are perfect for meetings and dinners alike; our quiet private spaces are equally stylish as they are functional, while our rooftop bar with London views provides a backdrop for showstopping occasions. Put simply, our venues offer some of the best event spaces in Central London – and our team is on hand to craft the perfect experience with you.

## Exclusive meets casual.

**With locations in some of London's most desired areas, we are well placed to host large events in the heart of the city.**

We can make entire venues available across our destinations, which feature unmatched capacity, ambience and views: perfect for corporate events, brand launches, weddings and filming. For weddings, our partnerships with sought-after retailers and artisans give you a direct line to potential suppliers, and our team is happy to make these introductions for you.

# Local and sustainable dining and drinking.

**Our modern British event menus are centred around contemporary British pub cooking that is both relaxed and refined.**

Made with seasonal, local ingredients, we offer a range of dishes, from fresh salads and flatbreads, to elegant, produce led plates. Our bar offers a selection of carefully crafted cocktails, biodynamic wines, local spirits and craft beers. When we create our menus, we always make sure the produce we're using is as sustainable, fresh and local as
